Winning The World Over...

Established as a strong reliable race wheel manufacturer, Rimstock have their Team Dynamics Pro Race and Pro Forged brands of high performance wheels and continue to be the chosen supplier by many national and international teams and race car constructors.

Championships

Technical products at cost effective prices and logistical solutions for complete championships are what Rimstock work to provide for top OEM's and high profile championship organisers. Team Dynamics Pro Race for cast alloy and Pro Forged for forged wheel options give any championship a massive selection of sizes and offset variation to accommodate their styling and technical requirements.

Competition Pro Forged Technology

Aluminium forged and billet machined wheels are now a very popular engineering favourite for combining weight optimisation, strength and durability. The Team Dynamics Pro Forged range can be produced for complete Championships like Australian V8 Supercars looking for ultimate performance in a cost effective manner to GT and Sports Prototype racing where performance is sort like the holy grail.

Available 16" through to 21" in comprehensive range of rim widths and offsets.

Race Wheel Refurbishment - A Winning Finish...

Team Dynamics race wheel refurbishment, the only British company with the technical capability to offer this service to race teams around the world.

Rimstock is a premier manufacturer of race and specialist aluminium wheels, boasting the largest and most advanced manufacturing facilities of any wheel producer in the UK.

These facilities have now been expanded for high level wheel refurbishment. The Plant and systems are fully approved. NO OTHER UK wheel manufacturer or refurb company has these approvals and systems in place.

Services offered:

- › Cosmetic rectification, pre-treatment and paint
- › Wheel safety testing
- › Pressure testing
- › Crack detection
- › X-ray
- › Tyre removal & refit
- › Alloy & Magnesium wheels catered for
